

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE SPECIFICATION

The paragraph beginning at page 49, lines 20-23:

([Tensile] Mechanical property)

In accordance with ASTM D-638 and ASTM D-790, the [bending or flexural]
mechanical strength was determined with use of a test piece obtained by injection
molding.

IN THE CLAIMS

10. (Amended) A resin composition according to Claim 1 [or 9], which further comprises
at least one member selected from the group consisting of a nitrogen-containing flame retardant,
a phosphate-series flame retardant and a carbonizable resin.

14. (Amended) A resin composition according to Claim 1 [or 9], which further comprises
at least one member selected from the group consisting of an antioxidant, a thermal stabilizer, a
drip inhibitor and a filler.
